

PRESS RELEASE

SEPTEMBER 2020

INTRODUCING LE PLAYER 3+, THE CLASSICA RANGE BY METRONOME IS NOW COMPLETE

With the CD Transport Le Player 3 already on the market since May 2020, Le Player 3+ completes the Classica range of Métronome with a super DAC & CD Player hybrid. Same classic design and improved electronics to deal with DSD up to 512 in native form : no DoP and no systematic resampling in Métronome devices!

After Le Player 3 arrived in the shops last May, the “Plus” version completes the Classica range with an integrated CD Player, or more precisely a DAC and CD Player hybrid, since the versatility of the device allows it to be perfect in both uses. In its elegant and timeless outfit, Le Player 3+ is the perfect device for all the music lovers who listen to computer music and thus need an excellent DAC, but who also listen their old CDs from time to time.

The D/A converter is available through asynchronous USB supporting PCM up to 32 bits / 384 kHz and DSD up to 512. With the S/P DIF input supporting PCM up to 24 / 192, Le Player 3+ DAC will be able to connect to most streamers or servers, or more generally all digital sources.

Le Player 3+ also comes with the improved pickup mechanism introduced with Le Player 3: new decoupling system and the “Pickup Box” enclosure reducing the parasitic noises from the transport. A future unmissable...

LE PLAYER 3+, Retail Price: 6,000.00 euros

Available in Silver and Black finishes

Jean Marie Clauzel, Owner and Designer of Metronome Technologie, comments: “Now I’m really proud with the Classica range, which is completed by a CD Transport, a DAC, and a hybrid, respectively Le Player 3, Le DAC and Le Player 3+. Despite the situation we face since the beginning of 2020, Métronome goes on innovating, and this is not coming to an end !”

TECHNICAL SPECIFICATIONS OF LE PLAYER 3+

- Pickup mechanism:
Philips GF8 customized by Métronome, encapsulated in the “Pickup Box”
- Resolution:
32 bits / 384 kHz dual-mono, 1 internal D/A converter (AK4493)
- Digital inputs:
Asynchronous USB type B
S/P DIF 75 Ohms RCA connector
- Analogic outputs:
Unbalanced 2.5 V RMS @0dB – 47 kOhms, RCA connectors
Balanced 2.5 V RMS @0dB – 600 Ohms, XLR connectors
- Power supply:
3 toroidal transformers with Schaffner filters, 7 independent regulation lines
Voltage: 100 – 120/240 V – 50/60 Hz
- Accessories: **Métronome remote, Delrin cones**
- Other characteristics:
Consumption: 35 VA
- Dimensions (LxHxP): **450 x 115 x 435 mm**
Weight: 11 Kg
- Finishes : **Black or Silver**
